

# Growth from Renewable Energy Cost Recovery Program

## Growth of the program

Total applications approved through 6/30/16	11,724
Increase in total capacity from 6/30/15 through 6/30/16	26.3 MWdc

## Total capacity in the cost recovery program

76 MWdc of renewables (PV, Wind, Digesters) in the program as of 6/30/16

\* Applications certified under WAC 458-20-273  
(Includes new applications, applications for system upgrades and component changes, and applications for changes in system ownership)

**Public Utility Tax (PUT) Credits taken by utilities for incentive payments made to participants under RCW 82.16.130**
