

Local Government Partnership Spring Meeting

Come join us!

The Local Government Partnership Meeting is scheduled for June 8, 2009. It is a great opportunity for all local governments to share information with each other. It's also a time to connect with Department of Revenue staff and peers. Through your involvement, you can help develop communication tools and agenda items that enhance local tax administration. So far, we have identified the following agenda topics for the June 8 meeting:

- Review and discussion of 2009 legislation that is important to you;
- Updated information and discussion of SST mitigation;
- The economy's impact on property tax levies;
- Current Department initiatives that impact local governments (including status of the local government web site and information sharing agreements);
- Local sales and use tax overview;
- Gathering input on your priorities.

When you register:

Please share with us any other items you want included in this or future meetings. Knowing what is important to you will help make our partnership meetings more meaningful. There is a space on the registration form for your ideas and comments. Your feedback is important and appreciated.

We look forward to seeing you! Participation of local governments like yours adds value and depth to these meetings.
