

PREPROPOSAL STATEMENT OF INQUIRY

CR-101 (June 2004)
(Implements RCW 34.05.310)
Do NOT use for expedited rule making

Agency: Department of Revenue

Subject of possible rule making: WAC 458-40-660 Timber excise tax -- Stumpage value tables & WAC 458-40-640 Timber excise tax -- Stumpage value area (map)

Statutes authorizing the agency to adopt rules on this subject: RCW 84.33.096, 82.32.300, and 82.01.060(2)

Reasons why rules on this subject may be needed and what they might accomplish: RCW 84.33.091 requires the Department of Revenue to revise the stumpage value tables every six months. The Department establishes stumpage value tables to apprise timber harvesters of the timber values used to calculate the timber excise tax. The Department anticipates amending WAC 458-40-660 to provide valuations for the 2nd Half of 2007. The Stumpage value area (map) (WAC 458-40-640) establishes the stumpage value area and hauling distance zone map, which is part of this rule, that must be used to determine the proper stumpage value table and haul zone in calculating the taxable stumpage value of timber harvested from private land. The Department anticipates revising the SVA 6 haul zones in this map due to mill closures in Yakima.

Identify other federal and state agencies that regulate this subject and the process coordinating the rule with these agencies: Although the U.S. Forest Service and Washington State Department of Natural Resources both regulate forest practices, neither is involved in valuation for taxation purposes. The non-tax processes and definitions are coordinated with these agencies to avoid conflict, but there should be no need to involve them in the valuation revisions provided in this rule.

Process for developing new rule (check all that apply):

- Negotiated rule making
- Pilot rule making
- Agency study
