Public Utility Tax Credits for “Billing Discounts” and “Qualifying Contributions”

This is our annual update on the Low Income Home Energy Assistance Program (LIHEAP) including the *Public Utility Tax Credit Application* for July 1, 2009 to June 30, 2010.

The Department of Community, Trade and Economic Development (CTED) administers LIHEAP in cooperation with light and power businesses and gas distribution businesses. Under this program, CTED administers funds from various sources to reduce energy costs for low income persons. CTED, or organizations that contract with CTED, distributes these funds in the form of grants to light and power businesses and gas distribution businesses based on need. Many light and power businesses and gas distribution businesses also provide billing discounts for low income customers.

To encourage billing discounts and contributions, RCW 82.16.0497 allows a limited credit against the public utility tax for billing discounts and qualifying contributions made by light and power businesses or gas distribution businesses.

Billing discounts are actual reductions in the amount charged for providing service to qualifying persons in Washington. A qualifying person is a Washington resident who applies and qualifies for LIHEAP assistance regardless if that person actually receives assistance.

Billing discounts do not include service charge reductions made using grants received from the LIHEAP, either from CTED or an organization that contracts with CTED, to administer LIHEAP funds.

Qualifying contributions are amounts given by light and power businesses or gas distribution businesses to an organization that contracts with CTED to administer LIHEAP funds.

Qualifying contributions do not include amounts received in the prior fiscal year from the business's customers for the purpose of assisting other customers.

Eligibility

To be eligible for the credit using billing discounts or qualifying contributions, the business must give billing discounts or qualifying contributions greater than 125 percent of those given by the business in the state fiscal year 2000 (July 1, 1999 - June 30, 2000), respectively. If no billing discounts or qualifying contributions were given in state fiscal year 2000, a credit is allowed in the first fiscal year that billing discounts or qualifying contributions are given. Each year thereafter, the business must give billing discounts or qualifying contributions of greater than 125 percent of those given in the first year, respectively, to be eligible for the credit.
