

QuickBooks Quarterly Tax Rate Table Import Instructions

Each quarter, DOR will provide a quarterly tax rate and jurisdiction table, which is a text file in a special format (.IIF) that can be imported into QuickBooks. You can import these items into your QuickBooks company file if you are using one of the following versions of QuickBooks: Professional, Premier or Enterprise.

To import the latest quarterly tax rate table, do the following:

- 1. Download the quarterly tax rate table file for QuickBooks at http://dor.wa.gov/QuickBooks to a directory on your PC
- 2. Launch QuickBooks and open your company file
- 3. Select File > Utilities > Import > IIF Files (See Figure 1) **For 2006-2008 versions

Tax rate updates added after July 1, 2008 will remain a permanent part of the tax rate and jurisdiction table, so over time the file will include tax rate updates with different effective dates. It is also possible that a single location code may have two or more tax rate updates After importing the quarterly tax rate and jurisdiction table, you may want to review your Item List and delete any items no longer necessary.

Please go to our web site at **http://dor.wa.gov/QuickBooks** each quarter to download the most recent text file for QuickBooks with the current rates.
