

RULE-MAKING ORDER EMERGENCY RULE ONLY

CR-103E (August 2017) (Implements RCW 34.05.350 and 34.05.360)

CODE REVISER USE ONLY

OFFICE OF THE CODE REVISER
STATE OF WASHINGTON
FILED

DATE: September 13, 2017

TIME: 2:01 PM

WSR 17-19-064

Agency: Department of Revenue

Effective date of rule:

Emergency Rules

- Immediately upon filing.
 Later (specify) _____

Any other findings required by other provisions of law as precondition to adoption or effectiveness of rule?

- Yes No If Yes, explain:

Purpose: WAC 458-20-183 (Rule 183) explains the tax reporting instructions for persons who provide amusement, recreation, and physical fitness services. RCW 82.04.050 is the statute that explains the taxability of these same activities and services. The statute was significantly amended in 2015 due to legislation (House Bill 1550) which changed the taxability of many of these activities and services. The Department will begin the standard rulemaking process in 2017 to reflect these changes, but until the final rule is adopted the Department wants the public to be aware that many of the tax reporting instructions in Rule 183 are only valid through December 31, 2015. There are no changes from the previous emergency rule filed May 16, 2017 under WSR 17-11-062.

Citation of rules affected by this order:

New:
Repealed:
Amended: WAC 458-20-183 Amusement, recreation, and physical fitness services.
Suspended:

Statutory authority for adoption: RCW 82.45.150, 82.32.300, 82.01.060

Other authority: RCW 34.05.350

EMERGENCY RULE

Under RCW 34.05.350 the agency for good cause finds:

- That immediate adoption, amendment, or repeal of a rule is necessary for the preservation of the public health, safety, or general welfare, and that observing the time requirements of notice and opportunity to comment upon adoption of a permanent rule would be contrary to the public interest.
 That state or federal law or federal rule or a federal deadline for state receipt of federal funds requires immediate adoption of a rule.

Reasons for this finding: Taxpayers providing amusement, recreation, and physical fitness services rely on Rule 183 to assist them in determining their tax reporting requirements. Due to the multiple changes to the statute concerning the taxability of amusement, recreation, and physical fitness services, Rule 183 requires a substantive update using the standard rulemaking process. Until the amended rule is adopted, the Department wants to ensure the public does not use current Rule 183 to determine their reporting requirements for periods beginning January 1, 2016.

**Note: If any category is left blank, it will be calculated as zero.
No descriptive text.**

**Count by whole WAC sections only, from the WAC number through the history note.
A section may be counted in more than one category.**

The number of sections adopted in order to comply with:

Federal statute:	New	___	Amended	___	Repealed	___
Federal rules or standards:	New	___	Amended	___	Repealed	___
Recently enacted state statutes:	New	___	Amended	<u>1</u>	Repealed	___

The number of sections adopted at the request of a nongovernmental entity:

New	___	Amended	___	Repealed	___
-----	-----	---------	-----	----------	-----

The number of sections adopted on the agency's own initiative:

New	___	Amended	<u>1</u>	Repealed	___
-----	-----	---------	----------	----------	-----

The number of sections adopted in order to clarify, streamline, or reform agency procedures:

New	___	Amended	___	Repealed	___
-----	-----	---------	-----	----------	-----

The number of sections adopted using:

Negotiated rule making:	New	___	Amended	___	Repealed	___
Pilot rule making:	New	___	Amended	___	Repealed	___
Other alternative rule making:	New	___	Amended	___	Repealed	___

AMENDATORY SECTION (Amending WSR 95-22-100, filed 11/1/95, effective 12/2/95)

WAC 458-20-183 Amusement, recreation, and physical fitness services. (1) **Introduction.** House Bill 1550 (chapter 169, Laws of 2015) made significant changes to many of the activities addressed in this rule. Readers should not rely on this rule for tax periods beginning January 1, 2016, but instead should refer to RCW 82.04.050 and dor.wa.gov for current tax information. This section provides tax reporting instructions for persons who provide amusement, recreation, and physical fitness services, including persons who receive their income in the form of dues and initiation fees. Section 301, chapter 25, Laws of 1993 sp. sess., amended RCW 82.04.050 to include as a retail sale "physical fitness services." This change became effective July 1, 1993. Physical fitness services were previously taxed under the service and other business activities classification. Amusement and recreation services were retail sales prior to the 1993 law amendment and the tax classification remains unchanged for these activities.

(a) Local governmental agencies that provide amusement, recreation, and physical fitness services should also refer to WAC 458-20-189 (Sales to and by the state of Washington, counties, cities, school districts, and other municipal subdivisions).

(b) Persons engaged in operating coin operated amusement devices should refer to WAC 458-20-187 (Coin operated vending machines, amusement devices and service machines).

(c) Persons engaged in providing camping and outdoor living facilities should refer to WAC 458-20-118 (Sale or rental of real estate, license to use real estate) and WAC 458-20-166 (Hotels, motels, boarding houses, rooming houses, resorts, summer camps, trailer camps, etc.).

(2) **Definitions.** The following definitions apply throughout this section:

(a) "Amounts derived" means gross income from whatever source and however designated. It includes "gross proceeds of sales" and "gross income of the business" as those terms are defined by RCW 82.04.070 and 82.04.080, respectively. It shall also include income attributable to bona fide "initiation fees" and bona fide "dues."

(b) "Amusement and recreation services" include, but are not limited to: Golf, pool, billiards, skating, bowling, swimming, bungee jumping, ski lifts and tows, basketball, (~~racquet ball~~) racquetball, handball, squash, tennis, and all batting cages. "Amusement and recreation services" also include the provision of related facilities such as basketball courts, tennis courts, handball courts, swimming pools, and charges made for providing the opportunity to dance. The term "amusement and recreation services" does not include instructional lessons to learn a particular activity such as tennis lessons, swimming lessons, or archery lessons.

(c) "Any additional charge" means a price or payment other than bona fide initiation fees or dues, paid by persons for particular goods and services received. The additional charge must be reasonable and any business and/or sales taxes must be paid upon such charges in order to qualify other income denominated as "bona fide dues" or "fees" to be deductible. The reasonableness of any additional charge will be based on one of the following two criteria:

(i) It must cover all costs reasonably related to furnishing the goods or services; or

(ii) It must be comparable with charges made for similar goods or services by other comparable businesses.

(d) "Direct overhead costs" include all items of expense immediately associated with the specific goods or services for which the costs of production method is used. For example, the salary of a swimming pool lifeguard or the salary of a golf club's greenskeeper are both direct overhead costs in providing swimming and golfing respectively.

(e) "Dues" are those amounts periodically paid by members solely for the purpose of entitling those persons to continued membership in the club or similar organization. It shall not include any amounts paid for goods or services rendered to the member by the club or similar organization.

(f) "Entry fees" means those amounts paid solely to allow a person the privilege of entering a tournament or other type of competition. The term does not include any amounts charged for the underlying activity.

(g) "Goods or services rendered" shall include those amusement, recreation, and physical fitness services defined to be retail sales in (m) of this subsection. Also see, WAC 458-20-166 (Hotels, motels, boarding houses, rooming houses, resorts, summer camps, trailer camps, etc.) and WAC 458-20-244 (Food products). The term shall include the totality or aggregate of goods or services available to members. It is not determinative that some members actually receive more goods or actually enjoy more services than others so long as the totality of the goods or services offered are made available to members in general.

(h) "Indirect overhead costs" means overhead costs incurred by the service provider that are not immediately associated with the specific goods and services. These costs include a pro rata share of total operating costs, including all executive salaries and employee salaries that are not "direct overhead costs" as that term is defined in (d) of this subsection, as well as a pro rata share of administrative expenses and the cost of depreciable capital assets.

(i) "Initiation fees" means those amounts paid solely to initially admit a person as a member to a club or organization. "Bona fide initiation fees" within the context of this rule shall include only those one-time amounts paid which genuinely represent the value of membership in a club or similar organization. It shall not include any amount paid for or attributable to the privilege of receiving any goods or services other than mere nominal membership.

(j) "League fees" means those amounts paid solely for the privilege of allowing a person or a person's team to join an association of sports teams or clubs that compete chiefly amongst themselves. The term does not include any amounts charged for the underlying activity.

(k) "Nonprofit youth organization" means a nonprofit organization engaged in character building of youth which is exempt from property tax under RCW 84.36.030.

(l) "Physical fitness services" include, but are not limited to: All exercise classes, whether aerobic, dance, water, jazzercise, etc., providing running tracks, weight lifting, weight training, use of exercise equipment, such as treadmills, bicycles, stair-masters and rowing machines, and providing personal trainers (i.e., a person who assesses an individual's workout needs and tailors a physical fitness workout program to meet those individual needs). "Physical fitness services" do not include instructional lessons such as those for self-defense, martial arts, yoga, and stress-management. Nor do these services include instructional lessons for activities such as tennis,

golf, swimming, etc. "Instructional lessons" can be distinguished from "exercise classes" in that instruction in the activity is the primary focus in the former and exercise is the primary focus in the latter.

(m) "Sale at retail" or "retail sale" include the sale or charge made by persons engaged in providing "amusement and recreation services" and "physical fitness services" as those terms are defined in (b) and (1) of this subsection. The term "sale at retail" or "retail sale" does not include: The sale of or charge made for providing facilities where a person is merely a spectator, such as movies, concerts, sporting events, and the like; the sale of or charge made for instructional lessons, or league fees and/or entry fees; charges made for carnival rides where the customer purchases tickets at a central ticket distribution point and then the customer is subsequently able to use the purchased tickets to gain admission to an assortment of rides or attractions; or, the charge made for entry to an amusement park or theme park where the predominant activities in the area are similar to those found at carnivals.

(n) "Significant amount" relates to the quantity or degree of goods or services rendered and made available to members by the organization. "Significant" is defined as having great value or the state of being important.

(o) "Value of such goods or services" means the market value of similar goods or services or computed value based on costs of production.

(3) Business and occupation tax.

(a) **Retailing classification.** Gross receipts from the kind of amusement, recreation, and physical fitness services defined to be retail sales in subsection (2)(m) of this section are taxable under the retailing classification. Persons engaged in providing these activities are also taxable under the retailing classification upon gross receipts from sales of meals, drinks, articles of clothing, or other property sold by them.

(b) **Service and other activities classification.** Gross receipts from activities not defined to be retail sales, such as tennis lessons, golf lessons, and other types of instructional lessons, are taxable under the service and other activities classification. Persons providing licenses to use real estate, such as separately itemized billings for locker rentals, are also taxable under this classification. See WAC 458-20-118 (Sale or rental of real estate, license to use real estate).

(4) Receiving income in the form of dues and/or initiation fees.

(a) **General principles.** For the purposes of the business and occupation tax, all amounts derived from initiation fees and dues must be reported as gross income which then must be apportioned between taxable and deductible income. The following general principles apply to providing amusement, recreation, and physical fitness services when income is received in the form of dues and/or initiation fees:

(i) RCW 82.04.4282 provides for a business and occupation tax deduction for amounts derived from activities and charges of essentially a nonbusiness nature. The scope of this statutory deduction is limited to situations where no business or proprietary activity (including the rendering of goods or services) is engaged in which directly generates the income claimed for deduction. Many for-profit or nonprofit entities may receive "amounts derived," as defined in this section, which consist of a mixture of tax deductible amounts (bona fide initiation fees and dues) and taxable amounts (payment for significant goods and services rendered). To distinguish between these kinds of income, the

law requires that tax exemption provisions be strictly construed against the person claiming exemption. Also, RCW 82.32.070 requires the maintenance of suitable records as may be necessary to determine the amount of any tax due. The result of these statutory requirements is that all persons must keep adequate records sufficient to establish their entitlement to any claimed tax exemption or deduction.

(ii) The law does not contemplate that the deduction provided for by RCW 82.04.4282 should be granted merely because the payments required to be made by members or customers are designated as "initiation fees" or "dues." The statutory deduction is not available for outright sales of tangible personal property or for providing facilities or services for a specific charge. Neither is it available if dues are in exchange for any significant amounts of goods or services rendered by the recipient thereof to members without any additional charge to the member, or if the dues are graduated upon the amount of goods or services rendered. Thus, it is only those initiation fees and dues which are paid solely and exclusively for the express privilege of belonging as a member of a club, organization, or society, which are deductible.

(iii) In applying RCW 82.04.4282, no distinction is made between the kinds of clubs, organizations, associations, or other entities which may be eligible for this deduction. They may be operated for profit or nonprofit. They may be owned by the members, incorporated, or operating as a partnership, limited liability company, joint venture, sole proprietorship, or cooperative group. They may be of a charitable, fraternal, social, political, benevolent, commercial, or other nature. The availability of the deduction is determined solely by the nature of the activity or charge which generates the "amounts derived" as that term is defined in subsection (2)(a) of this section.

(iv) Nonprofit youth organizations, as defined in subsection (2)(k) of this section, may deduct fees or dues received from members even though the members are entitled to use the organization's facilities, including camping and recreational facilities, in return for such payments. (See RCW 82.04.4271.)

(b) **Allocation of income.** Persons who derive income from initiation fees and dues may find that they have incurred business and occupation tax liability under both the retailing and service and other activities classifications. For example, an organization may furnish exercise equipment as well as provide lessons in martial arts to its members in return for payment of dues. The former is a retailing taxable activity while the latter is taxable under the service business tax. These taxes are at different rates. Once the income has been allocated between taxable and deductible amounts, the parts of taxable income attributable to either retailing activities or service activities must be reported on the combined excise tax return under the appropriate classification and under the prevailing tax rates. In addition, state and local retail sales taxes measured by the retailing portions must be separately collected from dues paying members, reported, and remitted with the same excise tax return.

(c) **Alternative methods of reporting.** Persons who receive any "amounts derived" from initiations fees and/or dues may report their tax liabilities and determine the amount of tax reportable under different classifications (retailing or service) by use of two alternative allocation methods. The taxpayer may only change its selected allocation method annually and all changes are prospective only. These mutually exclusive methods are:

(i) **Actual records of facilities usage.**

(A) Persons may allocate their income based upon such actual records of facilities usage as are maintained. This method is accomplished by either: The allocation of a reasonable charge for the specific goods or services rendered; or, the average comparable charges for such goods or services made by other comparable businesses. In no case shall any charges under either method be calculated to be less than the actual cost of providing the respective good or service. When using the average comparable charges method the term "comparable businesses" shall not include subsidized public facilities when used by a private facility.

(B) The actual records of facilities usage method must reflect the nature of the goods or services and the frequency of use by the membership, either from an actual tally of times used or a periodic study of the average membership use of facilities. Actual usage reporting may also be based upon a graduated or sliding fees and dues structure. For example, an organization may charge different initiation fees or dues rates for a social membership than for a playing membership. The difference between such rates is attributable to the value of the goods or services rendered. It constitutes the taxable portion of the "amounts derived" allocable to that particular activity. Because of the broad diversification of methods by which "amounts derived" may be assessed or charged to members, the actual records of usage method of reporting may vary from organization to organization.

(C) Organizations which provide more than one kind of "goods or services" as defined in subsection (2)(g) of this section, may provide such actual records for each separate kind of goods or services rendered. Based upon this method, the total of apportioned "taxable" income may be subtracted from total gross income to derive the amount of gross income which is entitled to deduction as "bona fide initiation fees and dues" under RCW 82.04.4282; or

(ii) **Cost of production method.**

(A) The cost of production allocation method is based upon the cost of production of goods or services rendered. Persons using this method are advised to seek the department's review of the cost accounting methods applied, in order to avoid possible tax deficiency assessment if records are audited. In such cases, the cost of production shall include all items of expense attributable to the particular facility (goods or services) made available to members, including direct and indirect overhead costs.

(B) No portion of assets which have been fully depreciated will be included in computing overhead costs, nor will there be included any costs attributable to membership recruitment and advertising, or providing members with the indicia of membership (membership cards, certificates, contracts of rights, etc.).

(C) The cost of production method is performed by multiplying gross income (all "amounts derived") by a fraction, the numerator of which is the direct and indirect costs associated with providing any specific goods or service, and the denominator of which is the organization's total operating costs. The result is the portion of "amounts derived" that is allocable to the taxable facility (goods or services rendered). If more than one kind of facility (goods or services) is made available to members, this formula must be applied for each facility in order to determine the total of taxable and deductible amounts and to determine the amount of taxable income to report as either retailing taxable or service taxable. The balance of gross amounts derived is deductible as bona fide initiation fees or dues.

(D) Under very unique circumstances and only upon advance written request and approval, the department will consider variations of the foregoing accounting methods as well as unique factors.

(E) Unless income accounting and reporting are accomplished by one or a combination of methods outlined in this section, or under a unique reporting method authorized in advance by the department, it will be presumed that all "amounts derived" by any person who provides "goods or services" as defined herein, constitute taxable, nondeductible amounts.

(5) Retail sales tax.

(a) The retail sales tax must be collected upon charges for admissions, the use of facilities, equipment, and exercise classes by all persons engaged in the amusement, recreation, and physical fitness services that are defined to be retail sales in subsection (2)(m) of this section. The retail sales tax must also be collected upon sales of food, drinks and other merchandise by persons engaging in such businesses. See WAC 458-20-244 (Food products). In the case of persons who receive their income in the form of dues and/or initiation fees, the amount of gross receipts determined to be taxable under the retailing business and occupation classification shall be used to determine the person's retail sales tax liability under this subsection.

(b) When the charge for merchandise is included within a charge for admission which is not a "sale at retail" as defined herein, the retail sales tax applies to the charge made for both merchandise and admission, unless a proper segregation of such charge is made in the billing to the customer and upon the books of account of the seller.

(c) The retail sales tax applies upon the purchase or rental of all equipment and supplies by persons providing amusement, recreation, and physical fitness services, other than merchandise that is actually resold by them. For example, the retail sales tax applies to purchases of such things as soap or shampoo provided at no additional charge to members of a health club.

(6) Transitory provisions for nonprofit youth organizations. The 1993 amendment of RCW 82.04.050 resulted in "physical fitness services" provided by nonprofit youth organizations being classified as retail sales. However, section 1, chapter 85, Laws of 1994, amended RCW 82.08.0291 and thereby exempted from the definition of retail sale, the sale of such services by a nonprofit youth organization to members of the organization. This change became effective July 1, 1994. Therefore, nonprofit youth organizations are only liable for retail sales tax on the sale or charge made for "physical fitness services" from July 1, 1993, to June 30, 1994. Nonprofit youth organizations were previously exempt from the collection of retail sales tax on "amusement and recreation services" (RCW 82.08.0291) and were previously not subject to retailing business and occupation tax on both the provision of "physical fitness services" and "amusement and recreation services" (RCW 82.04.4271). Nonprofit youth organizations, however, may have tax liabilities for other types of activities, such as retail sales of food, retail sales of tangible personal property, or the license to use real estate, as discussed above.
