## D Egg Dealers and Handlers

For information about egg dealer/handler requirements visit [dor.wa.gov/eggdealer](http://dor.wa.gov/eggdealer)

Does your operation have fewer than 3,000 laying chickens, or only produces eggs and/or egg products from turkeys, ducks, geese, guineas, or fowl other than domestic chickens?

Yes No

If you selected "No" above, check the box below that applies.

I understand that it is my responsibility to ensure, and I have determined, that either no eggs come from **facilities built before January 1, 2012**, or all eggs and egg products provided in intrastate commerce that are produced by commercial egg layer operations built before January 1, 2012, have current certification under the 2010 version of the United Egg Producers (UEP) animal husbandry guidelines, a subsequent version of the UEP guidelines, or an equivalent version. Additionally, if eggs come from these facilities, I certify that I understand and meet the applicable standards of all the requirements of RCW 69.25.065.

*Note:* An equivalent version may include American Humane Association (AHA) facility system plan and audit protocol for enriched colony housing.

Name the equivalent version (if applicable):

I understand that it is my responsibility to ensure, and I have determined, that either no eggs come from **facilities built on or after January 1, 2012**, or all eggs and egg products provided in intrastate commerce that are produced by commercial egg layer operations built on or after January 1, 2012, are approved under American Humane Association (AHA) facility system plan and audit protocol for enriched colony housing in effect on January 1, 2011, or a subsequent version of the AHA. Additionally, if eggs come from these facilities, I certify that I understand and meet the applicable standards of all the requirements of RCW 69.25.065.

**FOR YOUR AWARENESS:** The law is changing on January 1, 2024, and the above attestations will no longer be allowed. On or after January 1, 2024, chicken egg producers with more than 3,000 laying hens will have to attest to the following and list the source of their 3rd party accreditation for United Egg Producers Cage Free Housing to receive their Egg Handler Dealer endorsement.

I understand that it is my responsibility to ensure, and I have determined, that all new or renewal applications submitted under RCW 69.25.050 on or after January 1, 2024, must include proof that all eggs and egg products provided in intrastate commerce by the applicant (including eggs brought in from out of state for resale) are produced by commercial egg layer operations that meet the 2017 edition of the United Egg Producers (UEP) Animal Husbandry Guidelines for United States Egg-Laying Flocks: Guidelines for Cage-Free Housing, or a subsequent version of the plan recognized by the Washington State Department of Agriculture as providing equal or more usable floor space per egg-laying hen and, in addition, are operated to the standards identified in RCW 69.25.107.
