Enterprise Business Processes for Internal Identity Management

- Manage the State's internal identity management solution, the Enterprise Active Directory, to accomplish single sign-on.
- Manage the State Forest within the Enterprise Active Directory.
- Manage the federation to the Enterprise Active Directory.
- Manage the delegations within shared/central services, such as email.
- Maintain security boundaries between agencies.
- Administer the enterprise tenant account within Office 365.

These enterprise business processes are centrally managed by WaTech.

For questions about this enterprise service or to request a waiver, please contact the OCIO Policy & Waiver Mailbox [1].

Date	Action taken
09/06/2016	Designated as an Enterprise Service

APPROVING AUTHORITY

/s/ Michael Cockrill
State Chief Information Officer
