

Cigarette Tax

RCW Chapter 82.24

Tax Base The sale, use, consumption, handling, possession, or distribution of cigarettes. The tax applies on the first such taxable event that occurs within the state.

Retail sales and use tax also apply to the total retail value, including the value of the cigarette tax.

Tax exemptions may reduce the tax liability for this tax base. For more information refer to the [Tax Exemption Study](#).

Tax Rate The total state cigarette tax rate is currently \$3.025 per pack of 20 cigarettes. The state tax rate and authorizing statutes are:

- \$2.425 - RCW 82.24.020(1)
- \$0.60 - RCW 82.24.026

In 2005, the state and the Puyallup Indian Tribe entered into an agreement related to tribal cigarette taxes. Codified as RCW 43.06.465, the Puyallup tribal cigarette tax is currently imposed at a rate of \$2.775 per pack of 20 and is in lieu of the state cigarette tax and state/local retail sales taxes.

Note: The state has agreements with 23 other tribes which provide, after an initial phase-in period, for tribal cigarette taxes equivalent to the state cigarette tax plus state/local retail sales taxes. Tribal cigarette tax revenues are used for tribal governmental purposes.

Additionally, the federal government levies a tax of \$1.01 per pack on cigarette manufacturers.
