City Addendum Instructions

For faster service - Apply online

Instructions:

Use this addendum form to apply for the city business licenses available only through the Business Licensing Service (bls.dor.wa.gov/citycounty.aspx). Complete a separate Business License Application and City Addendum form for each of your physical business locations.

Contact directly any cities not licensed through the Business Licensing Service for their licensing requirements, as they are not yet part of the combined licensing process.

1. All applicants must complete Section A of this addendum form.
2. Complete Section B of this addendum to apply for the city business license endorsement for the city where your business is physically located inside city limits (resident business).
 - a. In Section 2 of the Business License Application form, write the name of the city you entered in Section B of this addendum and that city's license fee amount.
3. Complete Section C of the addendum to apply for license endorsements with other cities where you have no permanent physical location, but that you will travel into to conduct business (non-resident business).

For each city in which you will operate as a non-resident business, provide the following information:

Column 1, write the name of the city.

Column 2, if the city provides a no-fee license, indicate if you qualify for it, 'Yes' or 'No'. If there is no fee-exempt license in that city you may enter 'n/a'.

Column 3, provide the date you started or will start conducting business in that city.

Column 4, estimate your gross annual income for the coming 12 months in this city.

Column 5, provide the number of full-time employees you will have working inside that city's limits.

Column 6, provide the number of part-time employees you will have working inside that city's limits.

Columns 7/8, if the city charges a fee based on the number of employees (full-time and/or part-time), enter the per-employee fee. If the city charges a base fee in addition to other fee calculation include it in the total amount entered in column 9. If the city does not charge fees by employee leave this column blank.

Column 9, if you entered a per-employee fee in column 7, multiply that amount by the number of employees listed in column 5. If you entered a per-employee fee in column 8, multiply that amount by the number of employees in column 6. Add the two totals together and enter the result in column 9. If the city does not charge a per-employee fee, enter the fee amount for the city license.

In Section 2 of the Business License Application form, write the city name you entered in column 1, and the fee for that city you entered in column 9.

Please Note:

City license endorsements must be approved by the city before business may begin in that city, in accordance with the city's Land Use, Building and Fire codes and ordinances. Contact each city directly for more information.
